

We are a successful mid-sized family company with around 240 employees. At our headquarters in Sinsheim, we produce and finish high quality plastic injection molding tools. In addition, we are specialists in the production and assembly of technical plastic components, which we deliver to our customers in the automobile industry and other branches worldwide.

We offer a vacant apprenticeship position as of 01.09.2022 as a

Warehouse logistics specialist

Training duration:

3 years

The training takes place at the training locations company and vocational school as well as intercompany training

Field of work:

Warehouse logistics specialists receive goods, check them and store them properly. They compile deliveries and route plans, load and ship goods. They also help to optimize logistical processes.

Requirements:

Good secondary school diploma or high school diploma

Gerne bieten wir Praktikumsplätze zum Schnuppern an.
